

QCN04M5

Pneumatic/Hydraulic Rotary Union

Pneumatic electrical rotary union support 2-12 passage way pneumatic/hydraulic, it can combine with power,signal,Ethernet,USB,device net,control net,Canbus on request. It also could be mounted by shaft or optional flange mounting.Passage media types can use air/gas, chemical, tap water, oil,water.Typical application including automatic equipment,machinery manufacturing ,food processing etc.

Features

- ◆ Low torque
- ◆ Smooth rotation
- ◆ Different sealing type
- ◆ 4 air channel

Applications

- ◆ Automatic equipment
- ◆ Food processing
- ◆ Machinery manufacturing
- ◆ Military industry

Optional

- ◆ Air channel
- ◆ Circuit number
- ◆ Current rating
- ◆ Interface size

| QCN04M5 | Specification | Picture |
|-----------------------|----------------------------------|---------|
| Air channel | 4*air | |
| Interface size | M5*0.8 | |
| Air hole size | 3 mm | |
| Operating temperature | -20C°~+60C° | |
| Air pressure | -80KPa~0.5MPa | |
| Housing material | Aluminum alloy & stainless steel | |
| Body length | 70.5 mm | |
